Web Developer (intermediate) – React & Node.js | Software Engineering student

Software Technologist graduated in Software Development, now studying Software Engineering. I have a strong interest in Web Development. I like working with React and Node.js to build useful web apps. I enjoy learning how websites and systems work.

My goal is to get experience and work on real projects to become a better developer. I want to keep learning and grow in the tech world.

## Experience

### Family Business Assistant, Various family businesses – Sales and Customer Support

August 2021 – July 2025

- Customer Service: Helped clients in person and online in a friendly and respectful way.
- Support: Assisted in selling different products with my mother.
- Promotion: Helped promote cabin rentals and products on social media.
- Flexibility: Adapted to different roles depending on the needs of the business.

## Education

### Centro De Enseñanza Tecnica Industrial, Software Development, Technologist Degree.

July 2021 – June 2025

- I graduated as a Technologist in Software Development.
- Experience programming with C, C++, C#, Java, JavaScript, HTML, CSS, and Arduino IDE.
- Final project: Built a full Progressive Web App (PWA) for e-commerce using React, Node.js, PostgreSQL, Prisma, and Supabase.
- Software Development Engineer (In Progress). Starting August 2025.

## Miscellaneous and certifications

- Participation in "Discover Data with Oracle Education Foundation", where used Oracle Analytics Cloud to analyze data about the objectives of ONU sustainable development.
